

Vikrant Chaudhary

Lead UX Designer | 15 Years of industry experience across SaaS, Research, Investment services, Banking, Retail, Jewellery & Lifestyle accessories

vikrantkc@gmail.com | 8826514985 | Gurugram

Specialising in **internal platforms**, **information visualisation**, and **data-heavy workflows** for authors, coordinators, IT admins, executive teams & business users. I translate **research** and **stakeholder insights** into **decision-centric user experiences** that simplify complex workflows and drive business outcomes. Seeking a long-term UX/Product Design role within a **mature B2B product organisation** where I can contribute to continuous product evolution. I value stable, collaborative teams, sustainable ways of working, and **environments that support thoughtful design, long-term product ownership, and a healthy work-life balance**.

Skills

Experience Design & Strategy: Workflow optimisation, Role-based system design, Data-heavy interface design / User needs research, UX audits, Usability testing, Interaction design / Prototyping, Solution & concept validation, Business value articulation / Strategic thinking, Agile design, Market research

Visual and Interaction Design: Visual design · Visual identity systems · Design principles / Data visualisation for dashboards and enterprise tools / Motion design fundamentals · HTML & CSS fundamentals / Print, packaging & label design

Collaboration & Workplace Skills: Requirement gathering · Cross-functional collaboration · Stakeholder communication · Delivery planning · Prioritisation · Time management

Other Hands on experience: Drawing, Stop motion video, Simple product prototyping, Jewellery manufacturing process, Product and panoramic photography, Signage design

UI/UX Experience

Thoughtworks Technologies : Lead Consultant Experience Design

Jul 2021 – present, Gurugram

- **John Deere** - Redesigned end-to-end authoring workflows for a content authoring platform, replacing manual processes to improve efficiency and reduce content creation time.
- **NVIDIA** - Designed an enterprise GPU platform connecting providers and consumers to maximise utilisation by creating decision-centric availability visualisations and defining role-based workflows with product for efficient approvals and control.
- **Natural History Museum, UK** - Data Ecosystem - Drove discovery and current-state analysis to surface systemic data quality and visibility challenges; prioritised problem areas, led concept design and validation.
- **Redington** - Co-created a foundational design system and helped in uplifting the visual designs of key screens.
- **Axis Bank** - Acted as a design partner in requirements definition, stakeholder alignment, prototyping, and delivery validation. Designed scalable workflows, interfaces, and training materials for field adoption.
- **Lenovo** - Designed a unified education portal consolidating tools and communities for IT administrators. Planned and conducted evaluative research to validate design explorations and informed strategic decision-making. Led UX improvements and component definitions for dashboard.

Publics Sapient : Sr. Associate Experience Design

Mar 2018 - July 2021, Gurugram

- **Fidelity International** - Modernised a global meetings platform by redesigning conference creation and management workflows, introducing scalable models for multi-attendee mapping and

visualisation. Led UX across 8 investment applications, building modular data-driven dashboards that improved scalability, consistency, and analyst decision-making across global teams.

- **Verizon** - Drove UX enhancements for enterprise internet and billing platforms through workflow optimisation, dashboard redesign, and responsive enterprise UX across desktop and tablet, in close partnership with UX leadership and cross-functional teams.
- **Unilever** - Designed and structured web experiences for Unilever consumer brands and helped in UX documentation that enabled faster site builds and self-serve promotional campaigns through structured workflows, reusable components, and clear system guidance.

Power2sme Pvt Ltd : Design Lead UI/UX

July 2016 - March 2018, Gurugram

- Redesigned Power2SME's B2B procurement platform, reducing quotation form drop-offs from 80% to 25% through workflow optimisation. Designed FinanSME, a role-based credit application and verification system for SME owners, sales, and credit teams. Established scalable visual guidelines and reusable email templates, reducing external design costs, and partnered closely with product, engineering, marketing, and QA teams to deliver enterprise-grade web and mobile UX solutions.

Flora Hospitality : UX Designer

March 2016 - June 2016, Gurugram

- Conducted UX audit for Flora Hospitality's hotel websites, identifying usability and conversion gaps and delivering actionable recommendations to improve booking performance.

Gobazar.com (Karbonn Mobiles) : Sr UI/UX Designer

May 2015 - March 2016, New Delhi

- Led and contributed to UI/UX design for Gobazaar.com, Karbonn Mobiles' e-commerce web and Android platform, partnering with the design leadership team to deliver designs for development.
